

ESSENTRA

CUSTOM SOLUTIONS THAT FIT YOUR NEEDS

ESSENTIAL SOLUTIONS

DELIVERED

Getting you an off-the-shelf product is easy, with:

- 100,000 PRODUCTS IN 64 SALES AND DISTRIBUTION CENTRES ACROSS 33 COUNTRIES

- OVER 1 BILLION PARTS IN STOCK
- FAST DESPATCH

But what happens when you have a bespoke need for a specific challenge?

CUSTOM SOLUTIONS

Experience is key.

Our engineers are experts at designing business critical solutions that can turn your vision into reality, from design to 3D samples to finished products. Already have a CAD model? We're happy to bring it to life for you.

It doesn't matter where you are. We're global, with local support to back you up.

MANUFACTURING EXPERTISE

Once your custom solution has been designed, Essentra can produce and distribute it worldwide. Here's a quick look at our manufacturing capabilities. You know we can take care of you with:

- 230+ INJECTION MOULDING MACHINES
- DEDICATED DIP MOULDING FACILITIES
- HOSE PROTECTION MANUFACTURING
- 20+ EXTRUSION LINES
- SPECIALISED DIE CUTTING LOCATIONS
- LEADING ACCESS HARDWARE DEVELOPMENT SITE

TO BRING YOU THE BEST
PRODUCTS AND SERVICES,
WE CONTINUALLY INVEST
IN EXPANDING OUR
RANGE OF CAPABILITIES

ACCESS HARDWARE

From latches and locks, to catches and hinges, Essentra can develop custom solutions for a range of design challenges including:

- STYLE • COLOUR • MATERIAL • FUNCTIONALITY

We've already delivered millions of customised parts from our dedicated Access Hardware production and distribution facility.

- CUSTOM MACHINERY
Producing handles, hinges and locks
- RANGE OF ZINC DIE CAST MACHINES
Operating at 25, 30, 50 & 100 tonne variations
- INNOVATIVE RESEARCH AND DEVELOPMENT EQUIPMENT
- STAMPING MACHINES
Working stainless steel, brass and aluminium
- A VARIETY OF MACHINING UNITS
- POWDER COATING CABINS
For a variety of paint and finishing options

INJECTION & DIP MOULDING

Want to alter a standard dip or injection moulded part? No problem. Our manufacturing capabilities make it easy for us to customise our standard ranges of moulded plastic products.

- 230+ INJECTION-MOULDING MACHINES
Producing your bespoke solutions
- 3D PRINTING
3D samples of your custom product. We support from design, prototyping and tooling through to mass manufacturing
- DEDICATED DIP-MOULDING FACILITIES
Allowing you to alter standard moulded solutions

JUST A FEW CUSTOMISABLE INJECTION MOULDED SOLUTIONS:

Pipe and flange protection
Circuit board hardware
Cable management
Tube inserts
Hydraulic protection
Fasteners and fixings

DIE CUTTING & MASKING

Getting your desired result can be quick.
Our engineers can develop solutions that:

- STREAMLINE YOUR MASKING PROCESS
- CAN EFFECTIVELY REDUCE UNNECESSARY WASTAGE COSTS

We have the capabilities to make it happen:

- CUSTOM MASKING SOLUTIONS
With prototypes created by our experts
- DIE CUTTING MACHINES & FLATBEDS
Quickly produces assorted die-cuts
- MAGNETIC MASKING
Customises the die cut in your required shape
- RUBBER MASKING
For bespoke blasting protection
